EDUCATION

Trident Academy of Creative Technology (TACT)

Bachelor of Computer Applications (BCA)

Bhubaneswar, Odisha

August 2023 – October 2026

TECHNICAL SKILLS

Languages: JavaScript, HTML5, CSS3

Frontend: React.js, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Socket.io

Databases: MongoDB

Tools: VS Code, Postman, npm, Antigravity, Vite

PROJECTS

Smart Local Service Finder – MERN, Socket.io, Twilio

2026

- Engineered a full-stack local service marketplace using React 19, Node.js, Express 5, and MongoDB with Vite and Tailwind CSS 4 for a high-performance, modern frontend
- Architected real-time bidirectional communication between service providers and customers using Socket.io WebSockets, enabling live booking updates and instant status synchronization
- Integrated Twilio OTP API for secure service-completion verification, implementing a trust layer that validates transactions and prevents fraudulent confirmations
- Crafted an immersive 3D UI with React Three Fiber and Three.js animations, elevating user experience beyond conventional web interfaces

Real-Time Chat Application – MERN + Socket.io

2026

- Developed a full-stack real-time chat application using MongoDB, Express.js, React.js, Node.js, and Socket.io
- Implemented instant messaging with WebSockets enabling real-time updates without page refresh
- Built online/offline user presence tracking and dynamic message rendering
- Integrated JWT-based authentication and secure REST APIs for protected communication
- Enabled image sharing functionality via Cloudinary integration
- Optimized state management using Zustand for efficient real-time UI updates

E-Commerce Full Stack Application

2025

- Built a full-stack e-commerce platform using React.js, Node.js, Express.js, and MongoDB
- Designed and implemented RESTful APIs for authentication, product management, and order processing
- Integrated Stripe payment gateway for secure online transactions
- Optimized database queries and API responses, improving performance and reducing load time

EXPERIENCE

Sparkradix Technologies

Remote

MERN Stack Developer Intern

September 2025 – January 2026

- Developed scalable full-stack web applications using MongoDB, Express.js, React.js, and Node.js
- Implemented RESTful APIs with JWT-based authentication and role-based access control
- Optimized frontend performance, reducing page load time by 50% using code splitting and lazy loading
- Collaborated with cross-functional teams to convert business requirements into technical solutions

CERTIFICATIONS

Mastercard Cybersecurity Job Simulation

MERN Stack Development Internship — Sparkradix Technologies
